

**American  
Autoimmune**  
Related Diseases Association, Inc.

# 2017

ANNUAL REPORT

### *Mission Statement*

The American Autoimmune Related Diseases Association, Inc., (AARDA) is dedicated to the eradication of autoimmune diseases and the alleviation of suffering and the socio-economic impact of autoimmunity through initiating, fostering, and facilitating collaboration in the areas of education, public awareness, research, and patient services in an effective, ethical, and efficient manner.

## Chairman of the Board **Herbert G. Ford, D.Min.** President and Executive Director **Virginia T. Ladd, R.T.**

Through our shared “View from the Top,” we are privileged to offer you a view of AARDA leadership, not only from “the top”

but also from all levels within AARDA. Leadership means involvement—personal, organizational, educational, compassionate, collaborative. It also means constructive enthusiasm for the present and future of AARDA’s fight against the ravages of autoimmune disease.

### **Here are some of the significant FY 2017 happenings.**

ARNet has been launched. The Autoimmune Disease Patient Registry Research Network is up and running. ARNet facilitates research in one comprehensive, central database of anonymous patient information, enabling investigators around the world to enlist patients in clinical research studies.

In addition, ARNet helps researchers answer epidemiological questions, identify trends, and track the number of patients with certain autoimmune diseases and their experience in obtaining a correct diagnosis. The ARNet database continues to grow.

AARDA scientific symposia, under the leadership of Noel R. Rose, M.D., Ph.D., are expanding the knowledge of autoimmune disease among scientists, researchers and medical professionals. In 2017, we presented “Cancer Immunotherapy and Autoimmune Disease” and “Infection As a Trigger for Autoimmune Diseases.”

AARDA’s Autoimmune Summit Meeting, at the National Press Club in Washington DC, emphasized collaboration as it brought together patients, nonprofit group leaders, medical professionals and other health community personnel, plus corporate and foundation leaders for discussions on advocacy and research.

AARDA’s voice was heard among legislators, congressional staff, the National Institutes of Health (NIH) representatives, and other significant leaders on national and state levels. We spoke out about the renewal of the Prescription Drug User Fee Act (PDUFA), Fastercures legislation (which was signed by the President), and the need for patients to have access to specialists.

We spoke out on the subject of biosimilar naming; step therapy (trying potentially less effective medication before being allowed to receive more effective, admittedly expensive, treatments); access to and cost of medicines;

and non-medical switching of prescriptions, the changing of prescriptions by a third party without the doctor’s knowledge. This not only can be dangerous but also can impact the doctor-patient relationship.

We continue to collaborate with national autoimmune disease-specific organizations through the National Coalition of Autoimmune Patient Groups (NCAPG), which was organized in 1998 and is facilitated by AARDA. With a current membership of 38 member groups, NCAPG lends its voice for autoimmune advocacy.

**What do we see for the coming year?** Plans for 2018 include the following:

We look to develop a collaborative partnership with Allegheny Health Network and its new Autoimmunity Institute, having its hub at West Penn Hospital, in Pittsburgh, Pennsylvania. This is a major step in realizing our goal of a national autoimmune diagnostic and treatment center.

Also, we plan to provide seed funds to initiate a critical major study on the cost of autoimmune disease and the obtaining of a diagnosis.

We look to increase membership in the Autoimmune Partners Council, where partners in both the corporate and institutional worlds meet and share their experiences and knowledge with leaders in nonprofit organizations—largely representatives of the National Coalition of Autoimmune Patient Groups.

AARDA’s tradition of Autoimmune Summit meetings, open to patients, medical/healthcare professionals, and interested others, will continue. Also, more autoimmune scientific meetings are being planned.

The Board of Directors will develop a strategy for health forms to include a question on family autoimmune history—truly a first step in encouraging awareness and timely diagnosis among physicians.

We will work to increase basic autoimmune funding within the National Institutes of Health (NIH), Centers for Disease Control and Prevention (CDC), and the Department of Defense (DOD), with specific language in the defense budget for autoimmune disease.

**Do we have a magic wand for all of this?** No, we have AARDA supporters, including loyal in-kind contributors and volunteers, who invest generously in AARDA’s mission, thereby helping us to spend very little on actual fundraising (*see auditor’s report*).

We urge you to continue with us—or join the AARDA efforts as a newcomer. It’s a life-saving cause! We thank you for your interest. The 50 Million are counting on us.

## ***A Commentary from AARDA Scientific Advisory Board Chair Betty Diamond, M.D.***

*Betty Diamond, M.D.—Professor & Head, Center for Autoimmune & Musculoskeletal Diseases, The Feinstein Center for Medical Research, Northwell Health; Professor of Molecular Health & Medicine, Hofstra Northwell School of Medicine, Manhasset, NY*

**T**he year in autoimmunity has been a productive one in two important areas: assessment of response to therapy and mechanisms of disease.

A new strategy is emerging in our approach to assessing the efficacy of therapeutic regimens in autoimmune disease. The importance of considering patient self-assessment in the evaluation of new therapeutics has gained traction. This approach affirms the importance of quality of life as well as organ function as a meaningful outcome in medical therapies.

We have continued to explore mechanisms of disease with cellular metabolism emerging as a potentially important therapeutic target. Intervening with metabolism shows efficacy in many experimental models of autoimmune disease and has been previously employed in other patient populations as well. There is no question that we will see therapeutic trials beginning in the next few years that focus on altering the metabolism of particular immune cells as this will alter the activation profile of those cells and may thereby alter disease severity. Studies of experimental models have also revealed new pathways of immune activation which are now being explored in clinical trials. These focus on blockade of new cytokines, and already these have shown efficacy in psoriasis.

Tumor immunology promises to provide therapeutic strategies for the treatment of autoimmune disease. So-called “checkpoint inhibitors” that interfere with the pathways used by cells within the immune system to maintain quiescence have been incredibly effective in the treatment of cancer. Their use in cancer frees tumor cells, but an unexpected consequence has been the development of autoimmune disease in tumor patients. These observations have suggested that drugs that enhance the function of these checkpoints might reciprocally be effective therapy in autoimmune disease. This is an exciting avenue to pursue.

As technology advances, more and more studies are performed with human cells and tissues. This strategy promises to correct some misconceptions that have arisen with an emphasis on animal models.

It is gratifying that the National Institutes of Health (NIH) and the philanthropic community continue to recognize the power of science to improve human health. The work of the American Autoimmune Related Diseases Association (AARDA) as an advocacy organization for patients is of paramount importance in advancing a strong and innovative scientific agenda.

***—Dr. Diamond heads the work of AARDA’s Scientific Advisory Board (SAB) which has members from eight countries. Each member actively participates in the work of the SAB through speaking, reviewing proposals, serving in advisory capacities, and representing AARDA as requested. These outstanding researchers and physicians form a truly working Scientific Advisory Board.***

## ***A message from Kellie Martin, AARDA’s National Spokesperson***

**W**hen 18 years ago I said, “Yes,” to becoming AARDA’s National Spokesperson, I had no idea what would be involved. I simply knew that autoimmunity was a cause I wanted to embrace—for the memory of my younger sister Heather who had been lost to lupus at the age of 19 and to all autoimmune patients, especially those who might be lost, like Heather, by misdiagnosis. Would my name as an actor in film, TV, and other media be effective? I had to try.

Since that beginning, I have been privileged to speak for AARDA and autoimmune disease patients in congressional briefings, at scientific meetings, in TV appearances, and for magazine and newspaper interviews. I have walked the halls on Capitol Hill with other AARDA volunteers and have told Heather’s story to patients and others. Now I speak out also for my own little daughters who have been born into an autoimmune family.

While we haven’t yet seen the cure for autoimmune disease, I am heartened by the advances in awareness throughout the general public, the medical profession, the broad health care community, and our federal government. I am proud of the influence that all of us in AARDA have had in those advances and the vital support that we have been able to generate for research—still inadequately funded—that has led to improved diagnosis and treatment.

In the meantime, these cruel, life-threatening diseases continue to wreak havoc on patients, 75 percent of whom are women, many in their childbearing years, and their families. Our work continues.

My message to readers of this annual report: **Someone you know has an autoimmune disease, perhaps YOU.** Please join me in reaching as many of the estimated 50 Million afflicted with autoimmune diseases as possible. Spread the message, encourage those who suffer, and support AARDA’s mission. You won’t be standing alone. We welcome you—however you choose to help.

A handwritten signature in black ink that reads "Kellie Martin".

Kellie Martin  
AARDA National Spokesperson  
and dedicated AARDA Volunteer

## Major Accomplishments During FY 2017

### Research

- Provided grants to five researchers in the "Young Investigators" program: University of California, Feinstein Institute for Medical Research, Johns Hopkins University, and (with Relapsing Polychondritis Awareness and Research Foundation) National Institutes of Health (NIH), Critical Care Medicine Department
- Contributed to the W. Harry Feinstone Department of Molecular Microbiology and Immunology, Johns Hopkins Bloomberg School of Public Health, center for Autoimmune Disease Research, in memory of Mary Duplantier Dixon
- Supported the 17th Annual Meeting of the Federation of Clinical Immunology Societies (FOCiS), Chicago, Illinois
- Continued to amass funds for a National Autoimmune Diagnostic and Triage Center
- Launched the Autoimmune Registry Network (ARNet)
- Supported the Johns Hopkins University 18th Annual Autoimmunity Day

### Education (Patient, Public, Scientific)

- Sponsored, cosponsored or supported the following:
  - "How to Dance in the Rain," Conference for the Autoimmune Community, Scleroderma Foundation Michigan Chapter and others, Okemos, MI

AARDA Board member Michael Linn and AARDA/RP (Relapsing Polychondritis) Ambassador Kyle Marcelli, Grand Prix winning race car driver, show their support for AARDA.

- American College of Rheumatology Annual Meeting (AARDA staffed display booth), San Diego, CA
- Colloquium, "Cancer Immunotherapy and Autoimmune Disease," Washington, DC
- Symposium, "Infection As a Trigger for Autoimmune Diseases," Washington, DC
- Congressional Briefing, "Individually Rare, Collectively Common: How Environmental Health Science Helps Us Understand and Prevent Autoimmune Disease," Washington, DC
- Presented Autoimmune Summit, "Autoimmunity: Yesterday, Today, and Tomorrow," Washington, DC
- Continued support for organizer/facilitator of AARDA scientific meetings, Noel R. Rose, M.D., Ph.D., Pathology Dept., Brigham and Women's Hospital and Harvard Medical School, Boston, MA
- Continued to make available Autoimmunity Curriculum for Elementary and Middle Teachers, at no charge to teachers
- Continued as a source of autoimmune disease information on WebMD
- Maintained social networking sites

- Published quarterly lay-friendly newsletter *InFocus*
- Continued to make available AARDA patient-friendly "Risk/Benefit" brochure
- Continued to provide AARDA's "Three-Second Benefit Factor" study for physicians
- Maintained 24-hour toll-free request line
- Provided referrals and non-medical information during office hours
- Provided free educational brochures and newsletters to numerous health-centered meetings and events (TN, OK, MI, CT, MD, KY, IL, MA, CA, SC, IN, FL, TX, NC, NJ, AL, CO)
- Maintained Local Contact list with support groups as available
- Provided groundwork for Step Therapy and Awareness program

### Advocacy and Awareness

- By invitation, provided a speaker at the European Parliament of the European Union, Brussels, on establishing autoimmune disease as a disease category
- Sponsored ads on behalf of autoimmune patients concerning Prescription Drug User Fee Act (PDUFA), Fastcures legislation, and autoimmune disease patients to have access to specialists
- Continued AARDA 25th Anniversary Campaign and highlighted #AutoimmuneHeroes
- Expanded membership in the Autoimmune Partners Council
- Continued facilitation of the National Coalition of Autoimmune Patient Groups (NCAPG)
- Provided interviews and information for news media; had major advertisements and articles (or acknowledgement) in local and national publications

AARDA Autoimmune Walk leader Linda Vanhournout, of Bowling Green, KY (second from left), enjoys successful Walk results—\$8,000!

Guests raise their glasses to "Return to Downtown," AARDA's 2017 annual spring fund raiser.

## Fundraising

- Continued to encourage and provide support for "grassroots fundraising," including the digital Grassroots Newsletter
- Continued to expand the Autoimmune Disease Awareness Walks schedule (New York, Virginia, Michigan, California, Kentucky, Georgia) and provide support for Virtual Walks
- Sponsored the AARDA Annual Fund Raiser in the Greater Detroit area (an AARDA national event)
- Sponsored gala dinner fund raiser "AARDA Salutes Its 25 Heroes with a Taste from the Greats," Bouley Botanicals, New York, NY
- Co-sponsored with Grow Detroit's Young Talent "The Motor City Charity Fund Raiser" in conjunction with Detroit Grand Prix, Detroit, MI

## Administration

- Maintained the following ratings:
  - Charity Navigator Four Star Charity
  - Better Business Wise Giving Alliance Charity
  - Best in America Certified by Independent Charities of America
  - Guidestar Platinum Participant rating.

- Continued to meet all standards of the National Health Council, Washington, DC, and continued as an NHC member group
- Maintained membership and active participation in the International Alliance of Patients' Organizations (IAPO)
- Continued standing in the Combined Federal Campaign (CFC)
- Maintained membership in the Health & Medical Research Charities of America
- Held combined management and fundraising costs at 5 percent of total expenses (compared with 25 percent acceptable for nonprofit organizations)

AARDA Board member Lilly Stairs (front center) shares support time with autoimmune friends.

## GORDON ADVISORS, P.C. Certified Public Accountants INDEPENDENT AUDITORS' REPORT

The Board of Directors  
American Autoimmune Related Diseases  
Association Eastpointe, Michigan

We have audited the accompanying financial statements of American Autoimmune Related Diseases Association (a nonprofit organization) which comprise the statement of financial position as of September 30, 2017, and the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the financial position of American Autoimmune Related Diseases Association as of September 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Other Contributors and Friends

Space does not allow us to include the names of all the persons and organizations who gave their financial support to AARDA, but we want to say "Thank you" again as we give this recognition in honor of their generosity.

### Memorials and Tributes

Since it is our policy not to release amounts given for these donations, we take this opportunity to express our appreciation again to those kind donors. Every contribution has been acknowledged to the donors, to those persons honored, and to the families of those held in memorial.

## Officers and Board Members

**The Rev. Herbert G. Ford, D.Min.**

*Chairman of the Board*

President,

NECABA Management Group, Inc.  
Detroit, Michigan

Pastor, Good Shepherd Missionary  
Baptist Church  
Southfield, Michigan

**Stanley M. Finger, Ph.D.**

*Vice Chairman*

President

Environmental Consulting and Investigations  
Bluffton, South Carolina

**Virginia T. Ladd, President**

Executive Director

American Autoimmune Related  
Diseases Association  
Clinton Township, Michigan

**Nona Bear, Secretary**

Health Care Consultant  
Falls Church, Virginia

**Richard M. Hodge, Treasurer**

Fairfax Station, Virginia

**John P. Kaiser, Jr., CPA**

Partner, RSM US, LLP  
Peoria, Illinois

**Michael J. Linn**

Chief Operating Officer  
Varadero Capital, LLP  
New York, New York

**Michelle Ouellet**

CACI International  
Vienna, Virginia

### National Office

22100 Gratiot Avenue • Eastpointe, Michigan 48021-2227

Phone: (586) 776-3900 • Fax: (586) 776-3903

Web Site: [www.aarda.org](http://www.aarda.org)

The American Autoimmune Related Diseases Association, Inc., (AARDA), DBA Autoimmune Diseases Association, is a 501(c)(3) national voluntary health organization founded in 1991. AARDA is a member group and meets all standards of the National Health Council, in Washington DC, and of the Health & Medical Research Charities of America. AARDA is a member group of the Combined Federal Campaign (CFC). As a Better Business Bureau Accredited Charity, AARDA meets the strong and comprehensive standards of the Better Business Bureau Wise Giving Alliance. AARDA carries the seal "Best in America," certified by Independent Charities of America, and is a GuideStar Platinum Participant. AARDA has a Four Star Charity rating from Charity Navigator.
